1. The first part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atom. It is shown that the structure of the atom is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are based on the principle of the conservation of energy.

2. In the second part of the paper, the author discusses the structure of the atom in more detail. He shows that the structure of the atom is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are based on the principle of the conservation of energy.

3. In the third part of the paper, the author discusses the structure of the atom in more detail. He shows that the structure of the atom is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are based on the principle of the conservation of energy.

4. In the fourth part of the paper, the author discusses the structure of the atom in more detail. He shows that the structure of the atom is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are based on the principle of the conservation of energy.

5. In the fifth part of the paper, the author discusses the structure of the atom in more detail. He shows that the structure of the atom is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are based on the principle of the conservation of energy.

6. In the sixth part of the paper, the author discusses the structure of the atom in more detail. He shows that the structure of the atom is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are based on the principle of the conservation of energy.

7. In the seventh part of the paper, the author discusses the structure of the atom in more detail. He shows that the structure of the atom is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are based on the principle of the conservation of energy.

8. In the eighth part of the paper, the author discusses the structure of the atom in more detail. He shows that the structure of the atom is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are based on the principle of the conservation of energy.

9. In the ninth part of the paper, the author discusses the structure of the atom in more detail. He shows that the structure of the atom is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are based on the principle of the conservation of energy.

10. In the tenth part of the paper, the author discusses the structure of the atom in more detail. He shows that the structure of the atom is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are based on the principle of the conservation of energy.
